Suggestions if any:

1) Syllabus should include updations in latest materials & technology, in BC& M, BS, TOS subjects...it may be included as a "Elective" for the same subject, as a "sessional work"

2) In BS, studying in the same semester about "services topic" and "implementation" of it in Arch.Design IV subject is difficult at third year B.Arch, as per subject requirement... For eg. "Firefighting" & "Acoustics" is taught in sem 6, and expected implementation of it, in the same semester in subject "AD IV".

3) TOS end sem "theory paper" should be removed.

For students of "Architecture" course

"PROBLEM solving" and "Design of" proposed design of elements, pertaining to "individual Arch design solutions" of students, which are varied, should be kept as a "sessional assesment", for better understanding of students wrt structural designs.
