प्रतिनिधी | नाशिक

आशियातील सर्व वास्तुकला महाविद्यालयांमधील द्वितीय आणि तृतीय वर्षांच्या विद्यार्थ्यांसाठी, आर्किटेक्चरल रूकी अवॉर्ड स्पर्धा यंदा ऑनलाइन पद्धतीने घेण्यात आली. सुरगाणा तालुक्यातील हरसूलसारख्या दुर्गम आदिवासी भागातील स्थानिक संस्कृती, वास्तुकला आणि लोकजीवन यांच्याशी सुसंगत शैलीत शाळेचा प्रोजेक्ट निशांत कुडेकर या विद्यार्थ्याने सादर केला. त्यांनी साकारलेल्या वास्तुकलेला पारितोषिक जाहीर झाले.

भारतात स्पर्धेच्या नियोजनाची

जबाबदारी पुण्याच्या पी.व्ही.पी. कॉलेज ऑफ आर्किटेक्चरकडे असते. मात्र या वर्षी कोविड-१९ च्या आपत्कालीन परिस्थितीमुळे स्पर्धा ऑनलाइन घेण्यात आली. शैक्षणिक वर्ष २०१९-२० मध्ये द्वितीय आणि तृतीय वर्षांच्या

विद्यार्थ्यांनी केलेले आर्किटेक्चरल डिझाईन्स या विषयाचे प्रोजेक्टस या स्पर्धेसाठी पाठवणे आवश्यक होते. देशभरातून निवडण्यात आलेल्या ६० स्पर्धकांमध्ये मविप्र वास्तुकला महाविद्यालयाच्या निशांत कुडेकर, द्वितीय वर्ष, सुरेश चौधरी, तृतीय वर्ष

या विद्यार्थ्यांनी सहभाग नोंदवला. ऑनलाइन झालेल्या अंतिम फेरीत निशांत कुडेकरची अंतिम १७ स्पर्धकांमध्ये निवड झाली. त्याने स्पर्धेत आदिवासी लोकसंस्कृतीचे महत्त्वही समजावून सांगितले. आदिवासी भागात घरांची बांधणी याचे चित्रही रेखाटले. या यशाबद्दल संस्थेच्या सरचिटणीस नीलिमा पवार, अध्यक्ष डॉ. तुषार शेवाळे, सभापती माणिकराव बोरस्ते, उपसभापती राघोनांना आहिरे, चिटणीस डॉ. सुनील डिकले, संचालक मंडळ, शिक्षणाधिकारी डॉ. नानासाहेब पाटील, प्राचार्या डॉ. प्राजक्ता बस्ते व सर्व शिक्षकांनी निशांतचे अभिनंदन केले.

Dear Himani Choudhary,

On behalf of the entire LIXIL team, I would like to congratulate you and also thank you for your participation in the first ever LIXIL Mentorship Program, which has been a grand success for everyone associated with the venture.

Through this unique initiative our endeavour was to create a bridge between renowned architects and the aspiring minds of budding architects, such as yourself. We believe this platform provides a one of a kind experience that would immensely benefit bright, young architecture students, who might otherwise not have had direct access to highly successful and influential architects and their brilliant ideas.

I am confident that the knowledge, experience and Ideas you have gained from your Mentor through the course of this program will stand you in good stead throughout your bright career in architecture.

The successful implementation of this program would not have been possible without your whole hearted and active participation.

Once again, congratulations to you and wish you all the best for your future!

Warm Regards

Bobby Joseph

## SITE LOCATION

Site is located at Gangaghat in old Nashik adjoining the Gandhi Talav.

## AIM -

- Creating an enthralling holy atmosphere connected to the traditional and cultural ethos thereby stimulating peoples' minds to revive the past glory.
- Transforming the precinct by identifying the scope of architecture in response to involvement responding to physical, emotional and spiritual needs of the users.
- The proposal is to rejuvenate the deteriorating conditions of the Umamaheshwar temple structure, so also the surrounding precinct.

## REVIVAL OF A FADING HERITAGE - UMA MAHESHWAR PRECINCT

- Today the traditional and religious importance has faded due to change in lifestyle and globalization.
- Heritage and tradition has broad roots encompassing the connection of mankind and nature through a thread helping man rediscover the idea of designing for a way to bring the community together.
- The space depicts a potential medium where people from different backgrounds can interact with each other.
- The transformation could be a medium of interactive sessions and activities which could in-turn act as a source of income for the society, thus helping in the development of the area.

- The Uma Maheshwar precinct is surrounded by such highly religious & ritualistic activities that it has itself generated a strong spiritual and traditional aura.
- The holy river with its serene ghats, the open courts at high plinth opening towards the river, the surrounding traditional vernacular architecture with projecting balconies, deep eaves, pitched mangalore roofs, sitting ottas, and finally the beautifully placed temple core emphasized by the combination of its cheerful colours and the deep brown timber pitched mandapas.

## SITE CHALLENGES - THE TEMPLE COMPLEX

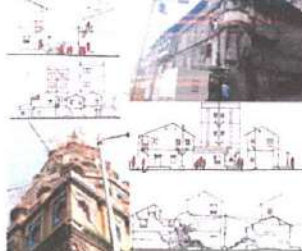

- Improper parking areas adjoining the ghat-side faces, encroached by beggars and unhygienic due to open urination.
- The facades are dominated by shabby open toilet ducting, ventilators, rough cement plaster, exposed ugly wings, deteriorating arches, and infused further with the insensitive R.C.C. construction.
- The site being flood prone is in constant threat of monsoon flooding as seen on the timber mandapa, the ground floor of the R.C.C. building and the adjoining structure in ruins.

TRADITIONAL CULTURE

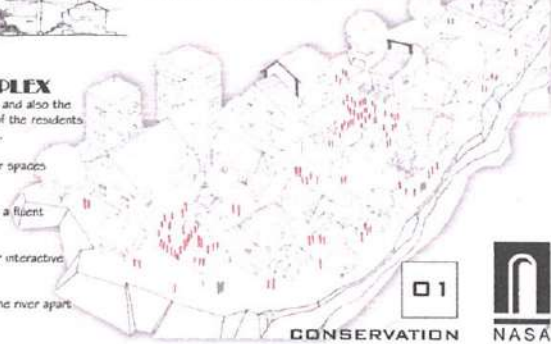

RELIGIOUS COMMUNITY

## SITE POTENTIALS - THE TEMPLE COMPLEX

- The typical projected balcony opening both onto the streets and also the courtyards, played a prominent role in the visual participation of the residents thereby regulating the footfall of the street to a certain extent.
- The structural proportions keep the tertiary streets and inner spaces shaded for the maximum period of time.
- Sloping terrain of the site helps the storm water to become a fluent stream towards the river.
- The other open courts present great deal of opportunity for interactive purposes, festive celebrations, etc.
- The high plinth is the advantage of a full panoramic view of the river apart from flood prevention.

PRESENT VIEW

RESTORED VIEW

### WEST FACADE INTERVENTIONS

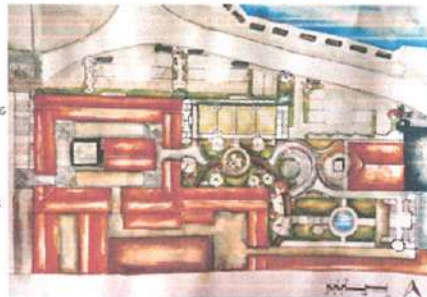

PRESENT VIEW

RESTORED VIEW

- The west façade faces the tertiary street serving the back entrance to the complex. A rather ignored street in terms of public involvement, use of vision, etc. Rather has mostly dead façade apart from some ventilators opening in to the all-time shaded street.
- The black basalt plinth has been used to mitigate public interaction through otta settings as the street is free of noise, garbage, water logging, etc. Problems and is mostly in shade.
- The paving has been so designed to create a directional force towards the complex.
- Toilet services- camouflaged into bastion façade using a similar faced duct.
- The façade is renovated using red bricks with thick lime plaster.

MASTER PLAN

### EAST FACADE INTERVENTIONS

It faces the main ghāt area of the holy river providing the most impactful presence of a self fortified precinct with the samadhi of maharam kashiba at a straight axis of the sunken court.

The huge area enclosed within the samadhi and the fortified wall has been treated as the main entrance foyer for the complex, paved orientally using black basalt stone.

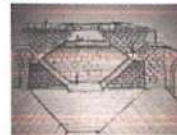

The doorway for the ramp leading to Uma-Maheshwar hall has been closed to prevent flood water entering into the sunken court within the complex.

A wall abutting two-way dogleg stairway serves the dead massive image of the fort wall without puncturing it becoming an element of surprise for what lies behind the wall.

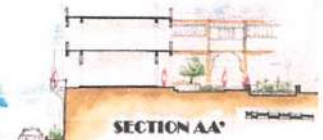

Thus the eastern side becomes an attraction and interactive element for mostly the visitors to the surrounding temples.

PRESENT VIEW

RESTORED VIEW

SECTION AA'

### THE COURTYARD

The sunken court has a central well so as to serve the people of the complex getting water for only a couple of hours in the morning.

The circular bridge connects the entrance nodes of the temple and the hall directly as an important processional pathway.

The upper court has been segregated into three zones, a private festive amphitheatre oriented to the wada, a public viewing deck oriented to the riverside and a central public amphitheatre.

SECTION BB'

### CONCLUSION

A very strong emphasis has been attempted upon the bright temple within a monotonous space.

The complex forms the heart which will have the pure essence of traditional indian community living, with a strong visual expression of materials, colours, textures, views, using what is indigenous to the context but has a faded and an ignored presence.

It is an attempt to revive a fading heritage as a living example of how traditional architecture was always a context of an individual, a group, a society, the climate, the ecology, of traditions, beliefs, and much more....

### KEY INTERPRETATION

Landscape can be used to develop a relation between memory, place and space.

To develop an awareness or memory of past which can be reflected in our landscape.

It should commemorate something i.e. it should bein someone's memory.

### WHAT IS LANDSCAPE?

All visible features of an area of land, often considered in terms of their aesthetic appeal, the landform and how they integrate with natural or man-made features. It is a frame in which the scope of land is designed.

Landscape is not always anything green or about planting trees. It's beyond that. A barren land can also

### NATURAL ELEMENTS

- Nature offers different views in different settings.
- Natural undulations depict ups and downs of life.
- Stone
- Dry grass
- Natural trees

### ACTIVITIES OF USERS

- Throwing stone
- Scribbling
- Silence
- Dark or bright space
- Sleep

### DESIGN SYNTHESIS

- Narrow and compact entry-courtyard.
- Barrier-one should not stop and move on in life or well.
- Free and open space.
- Unnatural Mountain space-dark, with just mesmerizing view of lake and beautiful waves. Tells human to take in situation from the lake.
- Connection with nature.
- Cube on lake Gives an idea of withstanding difficulties and staying strong in whatever the situation demands.
- Simple lake activities : Throwing stones and seeing the water ripple / hearing the water make sound and sitting at an elevation to enjoy the beautiful scope of the lake.
- Huge tree / Deeper the roots stronger the tree similar to a tree deeper the roots stronger the human.
- Module of a cube Can be used by a single person as well as variety of users for a single activity or a group of activities.

### FORM AND MEANING

You are alive if you have an experience in your heart, dreams in your eyes, learn to live freely like the wind and flow like the waves. Meet every moment with your arms open and try to live the life. On a conclusive note, the poem basically tells us to live the life which is somewhere but not if also gives an answer that this life which is lost can be found in the nature around us.

### CONCLUSION

In any design, the experience of the user is of utmost importance. The thought with which user comes from and the thought he is going with, marks the progress of the design. Our design will be celebrated when the user using our landscape will get engaged in our space and will actually understand the meaning of 'Life'.

### POEM AND MEANING

"Tuh Zinda Ho Tum" by Javed Akhtar which emphasizes on human life.

Dil se main tum apni bahariyon lake chah rahi ho  
Tuh zinda ho tum!  
Nazar main khud ko hi baqar dekhavate ho  
Tuh zinda ho tum!  
Hawa ke shor ko ke jaise chah rahi ho  
Tum abhi ke ba jaise, beharon main behav seekho  
Hawa ke ba tum me hi khole apni baharon  
Hawa ke ba tum me hi khole apni baharon  
Tuh zinda ho tum!

### MODULE DESIGN

On one side of the site is an urban scape while on the other natural scape. These two contrasting scopes are separated by a mountain range.

The purpose of this site is to show the ridge between these scopes and to let people know that somewhere they are being carried away by the urban life.

The emphasis on nature has to be provided. The site provides us with the beauty of nature and hence, satisfies the idea of our concept.

#### Design Brief:

##### Background

Water, Amenities and Sanitation Services Upgrading Programme (WASSUP) – is a community organization that repairs and maintains communal toilet facilities in the township of Diepsloot, South Africa.

Objective of developing a free style design is to provide solution to upgrade the existing community toilet facility which is durable and maintenance free. The solution will be easy to install and maintain for local residents across Diepsloot.

##### Existing Toilets

Each existing toilet unit comprises of a precast concrete module that houses a water closet and a hand wash and washing facility on the external side of the module. These toilets are located close to the residential area, with its back towards housing and the front facing the street. The toilet units are generally installed in pairs. The water supply and drainage lines are just behind the toilet units. The concept of upgrade is to introduce an improved design which can then be copied by WASSUP for future toilet installations.
