SWAYAM is a programme initiated by Government of India and designed to achieve the three cardinal principles of Education Policy viz., access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged.

SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy.

MVPS'S COLLEGE OF ARCHITECTURE has established Swayam NPTEL Local Chapter in its institution for effective teaching and learning process. Many students and faculty members are using this platform to gain knowledge and excel in their academic performance.
