ANALYSIS AS PER SUGGESTIONS RECEIVED STUDENTS-

- Syllabus should have new technologies and modern material .. in subject like BCM and building services etc..
- More hands on experience and exposure to foreign and national technology, exposure to current technology, trends, software development programs. Few audit courses can be based on software skills too

TEACHERS -

- Current Technology should be given more importance and site visits for various subjects made a compulsory part of the syllabus
- Basic design course should be part of second year of Architecture programme
- Students must be exposed to International practice, codes & Standards. Proficiency with advance software is also needed.

ALUMNI-

- Syllabus needs to be revised in terms of use of materials in architecture field. BIM should be focused. Advanced visualization tools can be introduced to students.
- Collaboration with International Universities may be in online mode, should be done. Students shall have more professional practice oriented syllabus.

EMPLOYER-

- More emphasis shall be given on new construction materials and techniques
- Students should have better exposure towards market developments in construction materials and newer technologies.

ACTION TAKEN FOR 2020-2021

- The existing Material Laboratory has been improved to familiarize students with various market developments.
- Students attended a Workshop (TECH FEST) conducted by IIID Nashik Chapter which had technical session conducted by the various vendors. This exposed the students to the various current trends and technologies prevalent.
- Additional courses like Photoshop and Coral draw were conducted as a part of capacity building and skills enhancement to improve software skills.
- The IQAC has initiated more hands-on activities to be integrated with academics.

ANALYSIS AS PER SUGGESTIONS RECEIVED

STUDENTS-

- Syllabus should have more practical and field work assignment to gain knowledge
- **BCM subject syllabus can be redesign to accommodate latest construction technology**

TEACHERS -

- Building Technology in 4th year should be more rigorous. Humanities should be independent subject. AGD should be spread out in 4 semesters.
- Syllabus needs to incorporate alternative, non-conventional construction materials & its detail construction
- Basic design subject in the syllabus should of at least two semester

ALUMNI-

- The Syllabus should contain Presentation skills at public / global level, Personal development trainings / workshops etc.
- Syllabus should give more weightage to Software skills and communication.
- The syllabus should be updated and should be relevant to the practice of present and future.

EMPLOYER-

- Architecture course should be of four year and internship period for 1 year
- The time span is not sufficient to have exposure to various aspects of profession in course architectural training.

ACTION TAKEN FOR 2019-20

- Suggestions were made to the BOS for change in BTM syllabus.
- Subject teachers have opined for change in 2015 BTM syllabus for higher years in the meetings conducted for the 2019 syllabus by the BOS of SPPPU
- The current syllabus has included Presentation Skills as Communication Skills in the 1st year Syllabus.

ANALYSIS AS PER SUGGESTIONS RECEIVED

STUDENTS-

- Syllabus can incorporate some of the allied subjects or soft skill development course.
- Advanced technology should be introduced in the syllabus
- The syllabus can be redefined with respect to worldwide practice in architecture.

TEACHERS -

- Eminent practicing Architects or the members of the International firms may be a part of Syllabus formation committee.
- The syllabus can include the technological upgradation as seen in current scenario.
- "Contents" of Some subjects like BT&M, TOS, should have overlap with other subjects of curriculum of the same semester of the same academic year.

ALUMNI-

- Subjects like Management and Finance should be included in the syllabus.
- Syllabus should upgrade in accordance with new technology and software skill set.
- The Syllabus should be an optimum balance between hand and digital skills

EMPLOYER

- Practical site knowledge should be a part of syllabus.
- Need to introduce technical details of building envelop

ACTION TAKEN FOR 2019-20

- Current Technological Practices are suggested to be included in the new syllabus for the 2019 pattern.
- Integrated teaching Pedagogy for various subjects like Design, B.S, B.T.M and T.O.S is practiced.
- Thrust on Finance Management in building Industry is given by the faculty while teaching.

Brief about the Program (Activity/Event)	<p>The certificate course on 'Sketching and rendering' in semester 1, was intended to develop the basic skills of sketching, rendering and perspective 3D drawing, using one, two & three point perspective methods. Easy perspective tricks were introduced to the students that helped them to draw 3D objects at any angle by understanding their structure, scales, proportions etc. Students also learnt to draw object shadows in perspectives. The knowledge was then applied to draw perspective drawings of simple building elements. Further basic rendering techniques were introduced to the students using various mediums. Students also learnt to draw proportionate human figures. The learnings of this course were implemented in developing perspectives of their architectural design problems and also to improve their presentation skills for the same. Step by step exercises were given to the students and evaluation was done.</p>
Outcome	<p>Students developed understanding of perspective and 3D drawing of objects, using easy tricks. They also learnt developing 3D drawings of simple building elements with sciography that will be useful to improve presentation of architectural drawings.</p>
Remarks	<p>Satisfactory.</p>

Brief about the Program (Activity/Event)	<p>The certification course on 'Sketching and Rendering' in semester 2 was designed as an advanced level of the basic learnings of the course in semester 1. Students were trained to draw detailed interior and exterior views in perspectives of building elements and building interiors. Students learnt easy methods of rendering in different mediums like water colours, coloured pencils, soft pastels, pen & ink. Using these techniques they were taught to render plans/elevations/sections of buildings.</p> <p>Step by step exercises were given to the students and evaluation was done.</p>
Outcome	<p>Students learnt easy methods of drawing interior and exterior views of buildings and rendering in different mediums like water colours, coloured pencils, soft pastels, pen & ink that further helped them to improve presentation of architectural design schemes.</p>
Remarks	<p>Integration of assignments with Architectural Design could be better worked out.</p>

Brief about the Program (Activity/Event)	<p>A joint workshop on "Exploring Patterns" was conducted for the students of 1st year Architecture. It was conducted in consolidated manner extensively for consecutive 3 days.</p> <p>The joint Workshop was hosted in collaboration with Rachana Sansad Academy of Architecture, Mumbai. 39 students from AOA, Mumbai and 81 students from MVPS's College of Architecture, Nashik participated in the workshop. It was conducted under the guidance of Ar. Shripad Bhalerao, AOA, Mumbai, jointly with the First year Design team of both the colleges.</p> <p>First day started with introductory session by Ar. Bhalerao and Ar. Joel wherein they explained students about Fractal geometry. Then every student explored 2D geometric patterns and selected patterns were converted to 3D explorations using paper modelling. At end of the day 6, 3D explorations were identified for live scale installations in groups after discussions.</p> <p>Second day started with identification of appropriate sites for live size installations. A presentation by Ar. Recheal Mewada on bamboo as a sustainable construction material explained its properties, applicability in architecture and various bamboo explorations in architecture done by her team. The next session began with understanding joinery of metal, wood, bamboo, rope etc With respect to the prototype designed. Students began assembly</p>

	<p>and understand process and methods of assembly using sketches and trials.</p> <p>On third day students actually started erecting their live scale structures using chosen materials such as bamboo, corrugated sheets, plastic bottles, ropes etc. after a daylong extensive work installations were stabilized and completed. Exhibition of completed structures was visited and appreciated by professionals from the field. The workshop was concluded with a cultural event of flute playing, felicitation of students and guests from Academy of Architecture in the hands of Ar. Sanjay Patil.</p>
Outcome	The whole process made students understand how simple 2D geometric patterns can be explored to make forms that can be transformed into interesting 3D spaces. Students got hands on experience of working with different materials like bamboo, plastic, cardboard etc. to erect live size models. Overall it was an experiential and collaborative learning experience for the students.
Remarks	More such joint ventures need to be worked out in future.

Certificate Course - A Joint Workshop on 'Exploring Patterns'

Curriculum and detailed activity schedule

Exploring Patterns through unit and repetition and fractals. At Nasik on 14th, 15th and 16th October 2016

The Team:

Team AOAU : Prof. Shripad Bhalerao, Ar. Joel Roy, Teja Gavankar, Ar. Recheal Mewada

Team MVPS's COA : Prof. Umesh Hirwe, Prof. Ketaki Joshi, Prof. Gitanjali Patil, Prof. Nishtha K., Prof. Ankita Pathare, Prof. Sharmishtha S., Prof. Sachin Wagh, Prof. Nakul Bhavsar

Number of students:

From AOAU – 39 students

From MVPS's COA – 81 students

Aim:

- To explore patterns in geometry and simplify them using basic rules of geometry. Adopt the patterns to create Unit.
- Repeating the unit to arrive at a progressive or fractal pattern.
- Using the pattern explore various making techniques like weave, connect, join and build a human scale form. To erect the form with basic functions around or within it.

Learning Objective :

- To Understand simple geometric patterns.
- Learn to set rules to develop rule based pattern
- To explore unit and repetition in Two dimensional and three dimensional geometry
- To explore making materials like Bamboo, Corrugated Board, Petbottles, Rope and Used flex with various properties.
- To make large size pattern based models with hand on skills to be learnt.
- To understand form and basic functions once the installation is ready.

Methodology:

- One pre workshop module on fractals and unit and repetition will be run by both institutes prior to the actual workshop
- The patterns created in Pre Workshop Module will be Identified and Curated by the faculty for final making modules to be erected during workshop.
- During 3 days of workshop the students will create prototypes, join them in a rule based manner and finally erect and or install the large scale installation.
- This is an explorative workshop to understand rule based incremental geometric patterns

Certificate Course - A Joint Workshop on 'Exploring Patterns'

Time	Topic	Activity
Day 1, Oct 14		
8:00 AM	Patterning	Session 1 begins In session 1 introduction of all students and faculty. Introductory presentation by Ar. Shripad and Ar. Joel
11:30 AM	Patterning	Session 2 Students start exploring geometric patterns shortlisted and start preparatory drawings/sketches
1:00 to 2:00 PM		Lunch Break
2:00 PM	Processing	Session 3 This session begins with choosing the pattern and starting converting its kit of parts.
4:00 PM	Prototyping	Overall joint discussion and groups presenting prototype option to choose from
4:30 to 6:00 PM	Prototyping	Finalizing the basic module and start making multiple unit
Day 2, Oct 15		
8:00 AM	Prototyping	Students join session 1 after completing their breakfast Identification of site for installation and continue making individual prototypes
11:00 AM	Construction	Session 2 begins with understanding joinery of metal, wood, bamboo, rope etc With respect to the prototype designed
1:00 to 2:00 PM		Lunch Break
2:00 PM	Construction	Session 3 This sessions students begin assembly and understand process and methods of assembly
4:00 PM	Construction	Session 4 continuation of making assemblage

Certificate Course - A Joint Workshop on 'Exploring Patterns'

		This day work will continue for a longer duration
Day 3, Oct 16		
8:00 AM	Construction	session 1 Actual assembly on site with proper supports etc begins
11:00 AM	Construction	Session 2 in this session final installation on site with all detailed ties etc.
1:00 to 2:00 PM		Lunch Break
2:00 PM	Construction	Session 3 in session 3 there will be final finishing and stabilizing the installation and trying to complete it.
4:00 to 6.00 PM	Construction	session 4 exhibition of installations. And grand celebration of completion of work. concluding the workshop with guests invited giving crits to students.
Assessment procedure: Assessment will be done based on the work done in 4 major stages during 3 days viz. <ul style="list-style-type: none">• Patterning,• Processing,• Prototyping• Construction Each stage will be marked out of 10 marks, Total 40 Marks Students securing more than 50% marks will be awarded with the certificates.

Brief about the Program (Activity/Event)

A joint workshop on "Exploring Patterns" was conducted for the students of 1st year Architecture. It was conducted in consolidated manner extensively for consecutive 3 days.

The joint Workshop was hosted in collaboration with Rachana Sansad Academy of Architecture, Mumbai. 39 students from AOA, Mumbai and 81 students from MVPS's College of Architecture, Nashik participated in the workshop. It was conducted under the guidance of Ar. Shripad Bhalerao, AOA, Mumbai, jointly with the First year Design team of both the colleges.

First day started with introductory session by Ar. Bhalerao and Ar. Joel wherein they explained students about Fractal geometry. Then every student explored 2D geometric patterns and selected patterns were converted to 3D explorations using paper modelling. At end of the day 6, 3D explorations were identified for live scale installations in groups after discussions.

Second day started with identification of appropriate sites for live size installations. A presentation by Ar. Recheal Mewada on bamboo as a sustainable construction material explained its properties, applicability in architecture and various bamboo explorations in architecture done by her team. The next session began with understanding joinery of metal, wood, bamboo, rope etc With respect to the prototype designed. Students began assembly

	<p>and understand process and methods of assembly using sketches and trials.</p> <p>On third day students actually started erecting their live scale structures using chosen materials such as bamboo, corrugated sheets, plastic bottles, ropes etc. after a daylong extensive work installations were stabilized and completed. Exhibition of completed structures was visited and appreciated by professionals from the field. The workshop was concluded with a cultural event of flute playing, felicitation of students and guests from Academy of Architecture in the hands of Ar. Sanjay Patil.</p>
Outcome	<p>The whole process made students understand how simple 2D geometric patterns can be explored to make forms that can be transformed into interesting 3D spaces. Students got hands on experience of working with different materials like bamboo, plastic, cardboard etc. to erect live size models. Overall it was an experiential and collaborative learning experience for the students.</p>
Remarks	<p>More such joint ventures need to be worked out in future.</p>

Live size cardboard installations by students

Live size bamboo installations by students

**Joint Workshop between Academy Of Architecture Unaided and
MVPS's College of Architecture**

**Exploring Patterns through unit and repetition and fractals.
At Nasik on 14th, 15th and 16th October 2016**

Aim:

- To explore patterns in geometry and simplify them using basic rules of geometry. Adopt the patterns to create Unit.
- Repeating the unit to arrive at a progressive or fractal pattern.
- Using the pattern explore various making techniques like weave, connect, join and build a human scale form. To erect the form with basic functions around or within it.

Learning Objective :

- To Understand simple geometric patterns.
- Learn to set rules to develop rule based pattern
- To explore unit and repetition in Two dimensional and three dimensional geometry
- To explore making materials like Bamboo, Corrugated Board, Pet bottles, Rope and Used flex with various properties.
- To make large size pattern based models with hand on skills to be learnt.
- To understand form and basic functions once the installation is ready.

Methodology:

- One pre workshop module on fractals and unit and repetition will be run by both institutes prior to the actual workshop
- The patterns created in Pre Workshop Module will be Identified and Curated by the faculty for final making modules to be erected during workshop.
- During 3 days of workshop the students will create prototypes, joint them in a rule based manner and finally erect and or install the large scale installation.
- This is an explorative workshop to understand rule based incremental geometric patterns.

Instructions for Students

1. All students shall report to AOA UA Prabhadevi premises on Ground floor at 6:00 AM on Friday 14th October. The bus will leave at 6:15 Sharp. Since the Nasik Highways gets traffic after 9 am its advisable to start early.
2. All students will carry following
 - a. Clothes suitable for working outdoors with different materials. Preferably full jeans, and thick Shirt or T shirt to protect from Sun, Sports Shoes preferable, please carry caps and glares for some time of the day we will work outside in sun.
 - b. Carry sunscreen cream or lotion if you get sunburns
 - c. Carry big size napkins
 - d. If you are having any chronic ailment or if you are undergoing any medication please inform the concerned faculty in advance and carry all your medication with you. We will carry first aid kit with us. We request you to carry some basic things like band aid, cotton and any specific emergency medicine that suits you as per your family phesicians guidelines. Also let us know if you are advised not to take paracetamol or any painkillers etc by your Doctors.
 - e. If you are allergic to any thing in air or any food ingredient please inform and avoid such situation in three days.
 - f. No one will be allowed to leave the premises during day time and the stay facility during night time.
 - g. No student will go anywhere without prior knowledge of the concerned faculty.
 - h. All the students have to follow discipline and adhere strictly to the instructions give by the faculty in charge.
 - i. While working with tools students have to follow safety norms and handle tools carefully.
 - j. Smoking and Consumption of Alcohol and any other substances is strictly prohibited in The Premises and the Stay facility.
 - k. The breakfast Lunch and dinner is arranged in the college premises only.
 - l. Students Must carry and wear their ID cards all the three days of the workshop.
 - m. Since it is a making workshop there will be group work . This working may continue beyond 6 PM till 9 PM if the need be. Since it is a group work proper planning and division of work in team will lead to a successful end product.
 - n. The total expenses for three days are 2400/- and shall be paid to the class in charge before Thursday 13th October. Along with the signed copy of the tour program by the Parents/Guardian.
 - o. Students shall carry Sketch book, Steel scale, Fevicol, Cutters, Sketching pencils and markers and all model making kit with Cutting Mat. please carry sufficient side smacks for ypu preferably home made dry snacks. There is a good filtered pure water available at the venue. It will be advisibpe to carry empty water bottles with
 - p. Please avoid carrying any valuables and please keep track of your cell phones and other important belongings that will be all students responsibility.

The Team:

From AOAUA there will be a team of 4 guides leaving with the students

Ar. Shripad Bhalerao 8097132799 Associate Prof. Core Faculty

Ar. Joel Roy 8452956238 Visiting Faculty ALD

Teja Gavankar 9867796977 Visiting faculty ALD

Ar. Recheal Mewada

**There will be total 8 faculty from The Nasik College out of that our
single contact points is**

Ar. Nishtha Karkhanis 8087342381

From our college in all 39 students will be going

**Final list of students going will be prepared on Wednesday 13th
October.**

Total expenses of the Nasik workshop for 3 Days is Rs. 2400/-

That includes

ST bus fare from AOA to Nasik and Return to AOA

Stay Facility for 3 days 2 nights

All breakfasts, Lunches, evening tea and Dinners.

All the cost of Material That will be required to make all installations.

**There are 80 students from Nasik College and the cost of Material to be
procured is divided equally between all the 120 students of both the
colleges.**

**Joint Workshop between Academy Of Architecture Unaided and
MVPS's College of Architecture
Exploring Patterns through unit and repetition and fractals.**
