Brief about the Program (Activity/Event)	<p>A step well documentation was organized by college.</p> <p>The aim was to enable students with the onsite documentation techniques.</p> <p>The programme encompassed report preparation along with preparation of detailed measurement drawings of stepwell.</p> <p>Today, despite being small in number, historic wells, cisterns and other groundwater storage structures continue to fulfil the water requirements of many people in small towns and villages of India. Their hydraulic technology, subterranean architecture and ornamentation have long been the subjects of study for architects, art historians and engineers.</p> <p>Students were introduced to the importance of such historical documentation and its need.</p>
Outcome	<p>Students have prepared measurement drawing techniques while understanding the architectural elements of historic buildings.</p>
Remarks	<p>This activity helped the student to understand the importance to revive the traditional water harvesting system.</p>

To,
Mr. Sanjay Birar,
Historian,
Laslgao,

Dear sir,

We would like to take this opportunity to thank you for extending your time to conduct lectures/on site experience for certificate course on Heritage Documentation for second and third year Bachelor of Architecture students on 1st, 2nd, 4th and 7th April 2023. The course helped the students to understand the importance of Heritage buildings as well as it helped them to understand the process of conservation involved in this field.

Again, thank you for your expertise in this topic. We are looking forward for more such collaborations in future.

Thanking you!

S.T. Birar
