<b>Brief about the Program (Activity/Event)</b>	<p>Inter college Table Tennis competition was arranged at Arts &amp; Commerce College, Vani Nashik</p> <p>02 students from second year and 02 students from Third year Students were involved.</p> <p>chess players learn to anticipate an opponent's next moves. To predict what another person will do next, a player must develop the ability to adopt another person's perspective and infer what action they are likely to take.</p> <p>Behavioral scientists call this this ability to see from another viewpoint the "theory of mind." It's an ability that is essential to exercising empathy and building healthy social relationships.</p> <p>The competition was held to enhance the sportsman spirit within students which will bring awareness about mental health and decision making power among them.</p>
<b>Remarks</b>	These programs help in developing over all personality of the student, such programmes should happen periodically.
